EDUCATION

Terna Engineering College   Nerul, Navi Mumbai
Bachelor of Engineering, Electronics and Telecommunication   *July 2018 – May 2023*

Tilak Educations Society   Seawoods, Navi Mumbai
HSC, PCM   *April 2017 – April 2018*

St. Augustine's High School   Nerul, Navi Mumbai
SSC, Science   *May 2015 – May 2016*

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Angular, Bootstrap, JQuery, Java, C#, JDBC, Hibernate, RDBMS
Tools: Eclipse, Oracle, MYSQL, PostgreSQL, Node, Maven, VS Code, Visual Studios 2019, Git Bash

EXPERIENCE

Prodigy InfoTech   4 Weeks
Software Intern   *Worli, Mumbai*

- During my internship, I actively participated as a Java developer, enhancing my skills in Java programming and contributing to database management using MySQL. I successfully completed five projects, ranging from basic to advanced levels, and uploaded them to GitHub.

PROJECTS

LIBRARY MANAGEMENT SYSTEM | *Java, JDBC, PostgreSQL*

- Designed and implemented a robust Library Management System in Java, leveraging PostgreSQL for seamless CRUD operations. Utilized JDBC to establish a direct connection with the database, ensuring efficient data retrieval and manipulation. Enhanced functionality and maintained database integrity, showcasing strong database management skills in a real-world application.

VEHICLE INVENTORY MANAGEMENT | *Java*

- Developed a Vehicle Inventory Management system in Core Java, leveraging pure OOPS principles and integrating Linked List data structure. Streamlined operations for efficient vehicle tracking, demonstrating advanced OOPS concepts and effective data structure implementation.

SUDOKU GAME | *HTML, CSS, JavaScript*

- Developed an engaging Sudoku Game through Front-end development, employing HTML for structure, CSS for design, and JavaScript for dynamic functionality. Delivered an interactive and visually appealing gaming experience, showcasing proficiency in web development technologies.

CERTIFICATIONS

Foundational C# with Microsoft *FreeCodeCamp*

Front-End: HTML, CSS, JAVASCRIPT *QSpiders/JSpiders*

Database: SQL (Oracle, PostgreSQL, MySQL) *QSpiders/JSpiders*

Back-End: Core & Advance Java *QSpiders/JSpiders*
